DESCRIPTION

This proposal would allow the City of St. Louis, in its capacity as a county, to amend or revise its charter in order to provide for the number, manner of selection, terms of office, and salaries of its county officers. This would not apply to the Office of Circuit Attorney, who would continue to be an elected official. The exercise of all powers and duties of counties and county officers are prescribed by the Constitution and laws of the State.

The proposal would also repeal the requirement that such amendments are to take effect

immediately, except as otherwise provided. Section 32 (b) of the Missouri Constitution would be repealed and a new section proposed. The proposed section pertains to the revision or amending of the charter of the City of St. Louis which affects the reorganization of county offices or transfers any or all duties, powers, or functions of current county officers. Current county officers will complete their present term and the revision or amendment of the charter of the City of St. Louis will take effect upon the expiration of the current county officeholder's term. Current members of the staff of county officers are given the opportunity to remain employees of the City of St. Louis with individual seniority and compensation unaffected. The amendment does not affect a person's right or privilege to retire or retirement benefits to which a person was entitled immediately prior to the effective date of the amendment.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
